Escherichia coli (E. coli) es una bacteria que se encuentra normalmente en el intestino del ser humano y de los animales de sangre caliente. La mayoría de las cepas de E. coli son inofensivas. Sin embargo algunas de ellas, como E. colienterohemorrágica (EHEC), pueden causar graves enfermedades a través de los alimentos.

Up to the end of 1946, the university consisted of six colleges, i.e. liberal arts, law, sciences, engineering, agriculture and medicine. The university, with a great number of celebrated scholars working as teachers here, had been made extensively influential and prestigious both at home and abroad.
