Birds have been especially successful at living at high altitudes. In general, birds have physiological features that are advantageous for high-altitude flight. The respiratory system of birds moves air across the pulmonary surface during both inhalation and exhalation, making it more efficient than that of mammals.

Bird Lives! - Wikipedia

There are many reasons why people might seek short-lived pets. There are a surprisingly small number of pets that have around a 5-year life expectancy, but such a trait is in high demand from first-time owners who aren't interested in making a vast long-term commitment or parents seeking a temporary source of enrichment for children.
