Blindsight: A Case Study and Implications : L. Weiskrantz ...

As is often the case with novel, counter-intuitive phenomena in science, blindsight studies were early the focus of intense sceptical attack, with dismissive suggestions, for example, that the findings may have been artifactually generated by stray light reaching the normal visual field. Also, it was suggested they really did see but were reluctant to acknowledge it, such that in signal detection terms that they had a significant d' but a strongly biased criterion (cf. Campion et al., 1983 ...
