BMW ENGINES - Engines for Africa
Cheers for the replies guys nomad Aye I would look to split the engine if its easier for them, could just get them to build the bottom end and I could fit the head at home or something. Parts cost wise, I'd be using used 3.0 parts, can usually get the bits for around £300 or so, so it would be the cost of labour on top of that and consumables like bearings, seals etc.

E30 Swap M50 - Gear98
The M52 engine series replaced the M50-series. This engine, like M50 engines, got an aluminum cylinder block with Nikasil layer on cylinder walls. For the North American market, the M52B28 features a cast iron engine blocks instead of aluminum ones, and only BMW Z3 model got engines with an aluminum cylinder block.
