Monthly "all you can eat" subscription services are now mainstream for music, movies, and TV. Will they be as popular for e-books as well?

The Vertical Gardens of Patrick Blanc

Perhaps the world's most famous vertical garden designer is Paris-based botanist Patrick Blanc. He has been creating his stunning installations for the past 25 years and grows his gardens, which he calls "vegetal walls", on supporting structures attached to buildings so that they reach to the original walls.

A green wall is a vertical greening typology, where a vertical built structure is intentionally covered by vegetation. Green walls include a vertically applied growth medium such as soil, substitute substrate, or hydroculture felt; as well as an integrated hydration and fertigation device. They are referred to as living walls or vertical gardens, and widely associated with the ...
