Jaybird 4 supports Firebird 2.5 and higher, on Java 7, 8, 11, and 15 (support for Java 15 using the Java 11 version of the driver); Java 16 has not been fully tested yet. See also: Jaybird 4.0.3 release notes

Quattro Pro - Wikipedia
Firebird, the little database server that can. In a big way! I have used Firebird in all projects where the choice was not set, for the last 20 years, starting with the open source version of Interbase. From embedded to 24/7 running servers with hundreds of concurrent connections. Hundreds of databases, millions of records.

Microsoft Access - Wikipedia
InterBase is a powerful, zero-administration, small-footprint database engine that can power your server and even run on your mobile devices as an embedded database. The InterBase 2020 release adds a number of new features, including tablespaces support for InterBase, allowing for better performance on servers with multiple data-storage options.

As the Borland Paradox 7 and Borland Database Desktop after the most recent Windows updates (Windows 7 & Windows 10) may not be running properly, and if you are dealing with either dBase/xBase or Paradox databases you might benefit from some of the tools below, all of which are compatible also with Windows 7, 32- & 64-bit as well as Windows 10.

[BDE (Borland Database Engine)] - Mr.XRAY
Both the OPW and Paradox for Windows codebases (the latter being another Borland database application) were based on Borland's internal pilot project with object oriented UI code for Windows. This project ran simultaneously with the Borland language group investigating the desirability of a C++ compiler, and the company decided to make a bet on ...
