PFI (Port Fuel Injection) Bosch Port Fuel Injectors (PFI) have a robust design and are capable of using Ethanol fuel (E100). All Bosch fuel injectors released to the aftermarket are OE fit, form and function, and are produced to OE specifications. The Bosch fuel injector has a return rate of 1 part per million (PPM), making Bosch the industry ...

Fuel Injection | Bosch Auto Parts
Bosch D-Jetronic. The four-cylinder Porsche 914 saw Porsche's first application of electronic fuel injection. Porsche had actually briefly considered Bosch's D-Jetronic (the "D" stood for druck, the German word for pressure) for use in the 911, but MFI proved to be better suited for the high-revving 911 engine. But, the "D-Jet" system proved to be more than adequate when applied to the low-revving, linear nature of the Volkswagen Type IV engine installed in the 914.

D-Jetronic History and Fundamentals - Rennlist
Jetronic is a trade name of a fuel injection technology for automotive petrol engines, developed and marketed by Robert Bosch GmbH from the 1960s onwards. Bosch licensed the concept to many automobile manufacturers. There are several variations of the technology offering technological development and refinement. 1 D-Jetronic (1967-1979)

Bosch CIS K-Jetronic Flow Testing Pt 2
Hence the name L-Jetronic; the "L" stands for "luft", the German word for air. In 1990 Bosch Motronic fuel injection replaced L-Jetronic on the Spider and 164 models. While the general operating principles are the same, Motronic offers more precise control over fuel and ignition events.
