Our brain is a powerful part of us. It's more or less a supercomputer built within a human being. Though more complex than a supercomputer, our brain has the opportunity to unlock boundless success and growth in our lives. The kicker to this is understanding how that's all possible.

## **Boundless Potential Transform Your Brain**

The left hemisphere of the brain controls the motor functions of the right half of the body, and vice versa; the same is true of vision. The left hemisphere of the brain processes visual images from the right-hand side of space, or the right visual field, and the right hemisphere processes visual images from the left-hand side of space, or the left visual field.
