Moving to a new provider would demand new learning, and the better the job current providers do, the higher the switching costs. To the extent that AI-CRM improves CRM, switching costs will increase. Given that even low switching costs can create a lock-in effect with customers (Blut et al., 2015 , Zauberman, 2003), we expect AI-CRM leaders to improve their retention of desirable customers.

Introduction I used to think that if I studied physiology enough. If I developed a sophisticated model of how the body works, I could use it to recognize and respond to disease by choosing therapies that “made sense” to fix the patient. But a few decades of “it made sense” failing repeatedly in randomized controlled...
