Welcome to the Bugera Thread. I wanted to make a place where everyone could go, to talk to people who actually own and use these amps. Also, I wanted...

What tubes shall I use for Bugera 6262 amp?

it "seems" that bugera has solved those problems in the last few years i own: tri-rec head g5 head 1990 head 333 2x12 6262 2x12 all are played hard all sound wonderful to my ears all have give me perfect service all five amps cost me less than \$1500 total bought brand new

6262 RevF - Schematic Heaven, Tube Books, Schematics Galore

The BUGERA amplifier has two paralleled LOUDSPEAKER outputs which are used to connect one or two speaker cabinets. Page 9: Audio Connections In addition, the speaker signal of the BUGERA is picked up by a microphone and is fed to the microphone input of the mixer.

New INFINIUM Valve Life Multiplier Technology

6262 (or 6262-212) features individual PRESENCE controls for the LEAD and CLEAN channels. 5 This is the VOLUME control that lets you adjust the volume level of the LEAD channel. 6 This is the VOLUME control that lets you adjust the volume level of the CLEAN channel. 7 The passive TREBLE control adjusts the upper frequency range. The 6262 (and ...

Bugera amps...good, bad, or..... | The Gear Page

6262/6262-212/6260/6260-212 User Manual

And the amp I bought is the Bugera 6262 non-infinium so it's a 7 DIN-pin connector EDIT: Some people say that the peavey 6505 footswitch works in the exact same manner and I found this schematic. The main difference is that one of the pins of the bugera footswitch should control a reverb control that isn't present on the Peavey

Bugera Amp Problems

I was having an issue with some crackling on the clean channel on my Bugera 6262 Infinium so I changed a preamp tube. Put in a Marshall red label tube and it sounded awesome. Fast forward about an hour and the clean channel doesn't work any more but lead does.

In my stupidity, it turns out that i have neither the 333x1 or the 6262. i have the 333 infinium and the 6260 infinium. The 333 has no presence control, so I cant find the R42, and the 6260 looks similar to the 6262 but where the R26 is I have a R32. I don't know if you can help, but I'm just not certain this is the right Resistor. Thanks.

These are the problems I am experiencing with the amp.

music-group.com

Available exclusively from BUGERA, INFINIUM Valve Life Multiplier technology is a major breakthrough in amplifier design and manufacture, providing incredible reliability for your stage performance and more consistent sound over the lifespan of your valves. Since they are always operating at optimal levels,

Bugera | Categories | Music Tribe - Bugera

Ok, I'm really confused as to what tubes I should use for this amp. There's 4 in the power section and 6 in the pre-amp section. I think I'll be OK deciding what 6L6 power tubes I'll be getting, but I'm confused what the V1,2,3,4,5,6 positions mean, since I know each position means a different thing, and I should have a certain type of tube, in say, the V6 position.
