Building Stata: The Design and Construction of Frank O ...

The characteristic Gehry curves are clad in metal, the more block-like elements in brick.

 The architectural drawings and photographs -- 300 of them in color -- in Building Stata document the making of the Stata Center from concept to concrete reality.

Building Stata: The Design and Construction of Frank O ...

The architectural drawings and photographs—300 of them in color—in Building Stata document the making of the Stata Center from concept to concrete reality. The photographs by Richard Sobol portray a work in progress, evoking the beauty of its architectural form and capturing the telling detail—the building’s sculptured shape against a clear blue sky, or construction workers perched on a massive curve of metal.

Building Stata | The MIT Press

Building Stata goes just a bit further than most books of this type. It gives one the feeling that one has been part of the design process, been "on site" with the mud, concrete and steel, then finally strolled around the almost finished building. This extra reality is due in large part to the brilliant photographs of Richard Sobol.
