Foundations for Cordwood Building: How We Built Ours (and ...  
Cordwood masonry is an ancient building technique where walls are constructed from "log ends" laid transversely in the wall, the same way that firewood is stacked. In the typical cordwood home, the walls are mortared at each end of the wood, while the space around the logs in the middle is filled with a sawdust and lime insulation. My neighbors here in Pony built the cordwood home pictured here.
