Building the Skyline: The Birth and Growth of Manhattan's ...

In Building the Skyline, Jason Barr chronicles the history of the Manhattan skyscrapers and provides insights into the economic forces that have created its distinctive and iconic panorama. Bedrock is Manhattan's natural and geological history, which influenced early land use and the development of neighborhoods, including the dense tenement neighborhoods of Five Points and the Lower East Side.

Building the skyline : the birth and growth of Manhattan's ...

Manhattan, as the world's greatest vertical city, is the result of a collective striving; its skyscrapers are the physical manifestation of this mass quest for success. Despite the fact that the skyscraper is inherently an economic phenomenon, there is almost no work that chronicles its economic history. This book aims to fill this void by documenting not only the "what" but also the ...
