EEVblog #168 - How To Set Up An Electronics Lab

Since Raspberry Pi doesn't have a built-in ADC (Analog to Digital converter) to read the voltage off from most of sensors, the best solution is to add I2C ADC chips and modules to your project.. Pawe? Spsychalski faced this problem while building his own weather station that is based on Raspberry Pi. It collects various data and displays them on dedicated web page and Android app.
