I have not read all of Stephen Jay Gould's essays between the covers of "Bully for the Brontosaurus", but he already has me hooked. I especially appreciate his prologue support of a rich selection of everyday language to skillfully "share the power and beauty" of scientific study, both the breakthroughs and the material that requires more study, exploration and review.

After reading Bully for Brontosaurus, I had more pleasant things to say about the book than I did displeasing. For one, I enjoyed the writing style of Mr. Gould. He took difficult material and simplified it through his writing. Not only did his unique writing style impress me but also I was awe stricken by the topics discussed.

Bully for Brontosaurus: Reflections in Natural History ...

Bully for Brontosaurus (1991) is the fifth volume of collected essays by the Harvard paleontologist Stephen Jay Gould. The essays were culled from his monthly column "This View of Life" in Natural History magazine, to which Gould contributed for 27 years. The book deals, in typically discursive fashion, with themes familiar to Gould's writing: evolution and its teaching, science biography, and ...

In France, they call this genre vulgarisation but the implications are entirely positive. In America, we call it "popular (or pop) writing" and its practitioners are dubbed "science writers" even if, like me, they are working scientists who love to share the power and beauty of their field with people in other professions.
