Africa has the world's oldest record of human technological achievement: the oldest stone tools in the world have been found in eastern Africa, and later evidence for tool production by our hominin ancestors has been found across Sub-Saharan Africa. The history of science and technology in Africa since then has, however, received relatively little attention compared to other regions of the ...

Thus, we may wonder what kind of alloys has a high entropy of mixing. For a random solid solution with N component, the configurational entropy of mixing is: $S_{mix} = -R \sum_i c_i \ln c_i$ where $R (= 8.31 \text{ J/K mol})$ is the gas constant, and c_i is the molar content of the i th component.

On Wednesday, 8 December 2021, Al Jazeera's The Stream asked: Could fusion energy be the clean energy answer to the climate crisis? Recent advances have led to a rise in interest and funding from investors who want to see the first energy-creating fusion machine and eventually the first fusion power plant to generate power that is safe and free of carbon emissions.

International Journal of Minerals, Metallurgy and Materials

The goal of disinfection of public water supplies is the elimination of the pathogens that are responsible for waterborne diseases. The transmission of diseases such as typhoid and paratyphoid fevers, cholera, salmonellosis, and shigellosis can be controlled with treatments that substantially reduce the total number of viable microorganisms in the water.
