"Cane Toads: An Unnatural History" is a film about mankind has altered the workings of an entire ecosystem by introducing a foreign element. Before you dig into "Cane Toads" let me alert you that this film is real, not a mockumentary, though if you weren't informed of the fact you would probably assume this film is a comedy based on its pure ...

Amazon.com: Customer reviews: Cane Toads - An Unnatural ...

The cane toad in Australia is regarded as an exemplary case of a "feral species"—others being rabbits, foxes, cats, and Giant Mimosa. Australia's relative isolation prior to European colonisation and the industrial revolution—both of which dramatically increased traffic and importation of novel species—allowed development of a complex, interdependent system of ecology, but one which ...

VIDEO: Cane Toads: An Unnatural History

"Cane Toads: An Unnatural History" and the 2010 full-length 3D follow-up, CANE TOADS: THE CONQUEST. These warty amphibians were never meant to be in Australia. CANE TOADS begins with the tale of their transport from Hawaii via their South American homeland in order to decimate the loathed cane beetle that

Cane Toads: An Unnatural History (1988) - Cane Toads: An ...

The introduction and subsequent migration of the cane toad in Australia was popularised by the film Cane Toads: An Unnatural History (1988), which tells the tale with a humorous edge and is often shown in Environmental Science courses. Don Spencer, a popular children's entertainer, sang the song "Warts 'n' All", which was used in the documentary.
