Carrying The Fire An Astronaut

Michael Collins, author of *Carrying the Fire*, flew in both the Gemini 10 and Apollo 11 space missions in the 1960s. He currently lives in South Florida.

Carrying the Fire - Wikipedia

NASA astronaut Michael Collins trained as an experimental test pilot before venturing into space as a vital member of the Gemini 10 and Apollo 11 missions. In *Carrying the Fire*, his account of his voyages into space and the years of training that led up to them, Collins reveals the human tensions, the physical realities, and the personal emotions surrounding the early years of the space race.

Carrying the Fire, An Astronauts Journey: Michael Collins ...

"*Carrying the Fire*" is wildly considered one of, if not the best of the astronaut-authored memoirs. In his original preface, Collins observed that the few years that had passed since the Apollo 11 mission had given him some perspective about how flying in space had changed his life.
