The case depends on the progress made to date—and the potential for more. We've learned much about the natural history and epidemiology of COVID-19. We're developing better diagnostics, including rapid point-of-care tests, a few of which can be completed in about 15 minutes. Case management has improved.

Document Readers for IDs, Passports | Thales
Water resources face an unparalleled confluence of pressures, with agriculture and urban growth as the most relevant human-related stressors. In this context, methodologies using a Nexus framework seem to be suitable to address these challenges. However, the urban sector has been commonly ignored in the Nexus literature. We propose a Nexus framework approach, considering the economic ...

Investors | Financial Reporting Lab | Financial Reporting ...
The coronavirus pandemic has led to widespread disruption and business closures resulting in substantial financial loss. Many customers have made claims for these losses under their BI insurance policies. There has been widespread concern about the lack of clarity and certainty for some customers making these claims, and the basis on which some firms are making decisions in relation to claims.

Case Scenarios In Hospitality Supervision
Supervision of the symptomatic student(s) must be maintained until a parent or guardian arrives. Supervision should be at a distance of at least 2 m where possible. The employee will wear PPE (gloves, medical mask and face shield). The staff member caring for the student should perform hand hygiene.
