***The MUI injector seats on the brass sleeve and
there is a pressing tool to seat the injector in
the sleeve to seal compression. The 3126B HEUI
injector does not touch the stainless steel
sleeve and seats directly on the cylinder head.
When 3126B sleeve seals and 3116/3126
sleeves leak, the engine will have fuel in the
cooling system.***

Our 1999 CAT 3126b with 113,000 miles (running full synthetic since new) is due for a valve adjustment so I called the Empire Cat service manager in Blythe, California for an estimate. He says it's a complicated, over four hour job due to a "fuel rack" that must be removed and adjusted before they can access the 3126b valves.
