### Accuracy of the Pain Numeric Rating Scale as a Screening ...

Hypertrophic osteoarthropathy is a medical condition combining clubbing and periostitis of the small hand joints, especially the distal interphalangeal joints and the metacarpophalangeal joints. Distal expansion of the long bones as well as painful, swollen joints and synovial villous proliferation are often seen. The condition may occur alone (primary), or it may be secondary to diseases like ...

A positive test means HLA-B27 is present. It suggests a greater-than-average risk for developing or having certain autoimmune disorders. An autoimmune disorder is a condition that occurs when the immune system mistakenly attacks and destroys healthy body tissue.

### Focal infection theory - Wikipedia

INTRODUCTION. Universal pain screening is an increasingly common practice, largely because of the Joint Commission on Accreditation of Healthcare Organizations (JCAHO) requirement that accredited hospitals and clinics must routinely assess all patients for pain. 1 Pain screening is intended to improve the quality of pain management by systematically identifying patients with pain in clinical ...
