Distinction Why do you share some but not all characters of each parent? At one level, the answer  
is in meiosis. Meiosis A Source of Distinction Meiosis does two things -

Section 10.2 Meiosis Flashcards | Quizlet  
Meiosis is a process that body cells undergo that results in the production of gametes (sex cells).  
The male gamete is the sperm and the female gamete is the egg. When a cell undergoes meiosis,  
the result is 4 gametes, with half as much genetic information (haploid). In this section, I talk about  
Chromosomes and genes and how the process of Meiosis plays a vital role in living things.
