Chapter 16: Water Pollution Flashcards | Quizlet

At this point, the air is saturated with water vapor. The  
temperature at which this happens is the dew point. At  
temperatures below the dew point, liquid water droplets  
can form from the water vapor in the air. Condensation  
happens when air is saturated with water vapor. Air can  
become saturated if water evapo-rates and enters the air  
as water ...
