Character Styles. Unlike the paragraph style, a character style can be set to define a single parameter such as font, color, size, or a combination of any of these. Character styles can be set by opening the Character Styles panel and choosing the desired style. Similar to the paragraph style, you can simply double-click any character style to open the Character Style Change dialog box.

InDesign: Paragraph vs. Character Styles
Paragraph styles affect entire paragraphs of text, whilst character styles affect individual characters or selected areas of text. For example, you may want to apply a paragraph style to a block of text and make it Times New Roman, but within it there need to be a couple of bold words. These would have a 'bold' character style applied to them.
