## 2.6: Problem Solving and Unit Conversions - Chemistry ...

Another type of common conversion problem deals with conversions between some unit and a prefix of that unit such as a conversion from meters to millimeters. The following table provides a list of some widely used prefixes. For example, 1 gigameter (Gm) = 1,000,000,000 meters (m) or  $10^9$  m, and 1 microinch ( $\mu$  m) = 0.000001 in or  $10^{-6}$  in.

## Unit Conversions Practice Problems

Practice converting moles to grams, and from grams to moles when given the molecular weight. If you're seeing this message, it means we're having trouble loading external resources on our website. If you're behind a web filter, please make sure that the domains
