Honestly, that would've been better. Imagine each episode dedicated to one of the main characters and following their life up until the end of the season. And other main characters can play a role in their episode but the episode is all about them. Then the last episode is all of the characters together.

A note to CSL processor developers In note styles, a citation is often a sentence by itself. Therefore, the first character of a citation should preferably be uppercased when there is no preceding text in the note. In all other cases (e.g. when a citation is inserted into the middle of a pre-existing footnote), the citation should be printed as is.
