Wikibooks is a useful resource if you're curious about a subject, but you couldn't reference it in academic work. It's also worth noting that although Wikibooks' editors are sharp-eyed, some less scrupulous contributors may plagiarize copyright-protected work by other authors. Some recipes, for example, appear to be paraphrased from well-known chefs.

Introduction to Statistics in Pharmaceutical Clinical Trials
Introduction to Statistical Methods for Clinical Trials (Chapman & Hall/CRC Texts in Statistical Science) Part of: Chapman & Hall/CRC Texts in Statistical Science (103 Books) | by Thomas D. Cook and David L. DeMets | Nov 19, 2007
