CodeIgniter User Guide — CodeIgniter 3.1.11 documentation

Manual Pagination ¶ You may find times where you just need to create pagination based on known data. You can create links manually with the `makeLinks()` method, which takes the current page, the number of results per page, and the total number of items as the first, second, and third parameters, respectively:

Pagination Class — dokumentasi CodeIgniter 3.0.3-dev I find this problem appears to be a fallout of an issue discussed in one of my other posts regarding (manual) pagination in 4.0.4: The system's `Model.php` `paginate()` function invokes an instance of the `Pager` service in a `NON-SHARED` mode (which seems to be a mistaken choice (?)).
