This year The Mars Society held Mars Colony Prize - a contest for "the best plan for a Mars colony of 1000 people. The colony should be self-supporting to the maximum extent possible - i.e. relying on a minimum mass of imports from Earth. The goal is to have the colony be able to produce all the food, clothing, shelter, power, common consumer products, vehicles, and machines for 1000 people, with only the minimum number of key components, such as advanced electronics needing to be imported ...

Colony Two Mars (Colony Mars #2) by Gerald M. Kilby
Colony Two Mars is a great action-adventure extension of the original story line. I enjoyed it even more than the first. Great characters, good pacing, engaging premise. If you liked Colony One Mars, then you'll definitely want to continue on. If you haven't read either, download both and light one off the other. There's a set-up for a third.

Mars One was a small private Dutch organization that received money from investors by claiming it would use it to land the first humans on Mars and leave them there to establish a permanent human colony. From its announcement in 2012 to its bankruptcy in early 2019, it is estimated to have received tens of millions of dollars. The organization was not an aerospace company and did not manufacture hardware. Mars One consisted of two entities: the not-for-profit Mars One Foundation, and the for-pro

Colony One Mars is about a human mission to check what happened to the first human colony on Mars after it lost contact with Earth. Apart from the Hard SF bits it contains little of interest. It starts off as excellent Hard SF but the hard classification seems more and more questionable as the story develops.
