Company ABB Ltd. is an established world force in the design and manufacture of instrumentation for industrial process control, flow measurement, gas and liquid analysis and environmental

The Commander (TV series) - Wikipedia clearly established the fact that inspections were a commander's -- and not an IG's -- responsibility. The Army leadership believed that commanders had come to rely on the AGI as the primary method of assessing their unit's strengths and weaknesses. The Command Inspection Program (CIP) sought to remedy this problem. In effect, the CIP
