complex responsive processes - Managing Research Library

Complex Responsive Processes in Organizations: Learning and Knowledge Creation. Learning and knowledge creation are seen as qualitative processes of power relating that are emotional as well as intellectual, creative as well as destructive, enabling as well as constraining. The result is a radical questioning of the belief...

Complex Responsive Processes in Organizations: Learning ...

drawing from Mead's ideas, provides a process perspective on individuals and organizations as a challenge to the systemic perspective. The theory of complex responsive processes points to the incompressibly complex nature of reality and, consequently, to the innate limitations of systemic descriptions.

A New Theoretical Foundation for Relationship-centered Care

Complex Responsive Processes in Organizations In my view this book reflects efforts to map organizations and practice (or activity) to the philosophical shifts of postmodernism. Specifically we can trace the evolution of ontological and epistemological commitments from entity based to transactional based thinking – from substantialist to relational ways of knowing.

in sociology, psychoanalysis and group analysis, the theory of Complex Responsive Process (CRP) is the first complexity theory written specifically about human thought and communication (in contrast to other complexity theories which are based on natural or biological sciences and applied to humans by means of analogy or metaphor).

An Introduction to Complex Responsive Process: Theory and ...

Complex responsive processes of relating provides a foundation for RCC's emphasis on self-awareness. It shows that our differences and diversity are the source of novelty (creativity) in our conversations and that our capacity for responsiveness—approaching differences with curiosity rather than fear and defensiveness and remaining open to being changed—enables new patterns to evolve.

Stacey: Complex responsive processes in organizations

...

The aim of this series is to give expression to a particular way of speaking about complexity in organizations, one that emphasizes the self-referential, reflexive nature of humans, the essentially responsive and participative nature of human processes of relating and the radical unpredictability of their evolution.
