At my day job, I spend a fair amount of time working on software reliability. One way to make software more reliable is to use memory-checking tools like valgrind's memcheck and clang's AddressSanitizer to detect memory errors at runtime.. But these tools are typically not appropriate to use all the time - valgrind causes programs to run much more slowly than normal, and AddressSanitizer ...

“Confessions of a Taoist on Wall Street” was his first novel - an ambitious work that won a major literary award and established his reputation as a preeminent novelist. Quite honestly, however, I think his later works are better because he learned to reign in his tremendous gift with language and dole it out in digestible bits.
