Natural Disasters Interactive worksheet

Natural Hazards in Ontario Flooding and other natural hazard occurrences have a long history in Ontario. Early settlers in Upper Canada were keen observers of daily weather and natural conditions. Most settlers kept diaries recording weather entries, and made a point of communicating local conditions through letters.

Natural disaster - Wikipedia

Climate change is largely to blame for a near doubling of natural disasters in the past 20 years, the United Nations said on Monday. The UN Office for Disaster Risk Reduction said 7,348 major disaster events had occurred between 2000 and 2019, claiming 1.23 lives, affecting 4.2 billion people and costing the global economy some \$2.97 trillion. The figure
