Springs - Vauxhall Parts | LMF Vauxhall

To remove the rear shock, it will be necessary to lower the suspension arm slightly until it's free. You shouldn't have to lower the arm very far for this, but if you do, keep an eye on the brake pipes, and make sure they're not placed under any strain. Pull the shock down to free it from the top mounting, and remove it from the wheel arch.

Lowering Guide for Corsa B - Corsa Sport - for Vauxhall ...

Air filters are the first step to tuning any engine. The principle is simple, the more air you get in the engine, the more power you get out. Ok, so there is obviously more to it than that, but bolting on an induction kit can increase your cars power from 1-2bhp, up to 15bhp (rolling road proven!!)
