Commercial or In-House Tools for Electrical/Electronic ...
The number Commercial-off-the-shelf (COTS) software options have increased exponentially in recent years. A sister of COTS, the "SaaS" or Software-as-a-Service where the commercial solutions are made available over the web, with no hosting or installation required, has made these solutions even easier to implement technically.

VAPS XT - Presagis - COTS Modeling & Simulation Software
Figure 6: COTS data communications network design and verification tool. Conclusion. Several factors impact 'make or buy' analyses. All these factors apply to deciding between COTS and in-house E/E systems development software. In the E/E domain the decision now is usually to 'buy'.

(PDF) Karl Wieggers Joy Beatty Software Requirements ...
VAPS XT is a complete, object-oriented C++ avionics software development tool for all types of avionics cockpit displays, including ARINC 661. It provides qualifiable code generation for rapid development of DO-178C certifiable software.

What Requirements to Specify for COTS and SaaS Projects
The CSA aims to correct this and minimize the CSV effort by specially focusing on COTS (Commercial, Off-The-Shelf) platforms to improve efficiency and validation, data visibility and accountability. Broadly, this would include non-product software systems that tie together automation, data management, patient safety, data integrity and product ...
