Black and White Photography Tips - dPS

I absolutely love working with like minded people who see the world the same way that I do. One of my favorite clients described me as the most unenchanted wedding photographer ever, because while I love

small, intimate weddings, elopements and the idea of marriage, I think most weddings suck.

Welcome to the Boulder Photo Center

Photography editing software is used to create a duplicate black and white copy of an artwork as a separate layer beneath the original photograph. The coloured layer is then partially erased, cropped or selected, leaving colour visible in certain areas only.
