from Csikszentmihalyi, M. (1996). Creativity: Flow and the psychology of discovery and invention. Creative persons differ from one another in a variety of ways, but in one respect they are unanimous: They all love what do. It is not the hope of achieving fame or making money that is the opportunity to do the work that they doing.

Creativity Quotes by Mihaly Csikszentmihalyi

Flow and the Psychology of Discovery and. Drawing on nearly one hundred interviews with exceptional people, from biologists and physicists, to politicians and business leaders, to poets and artists, as well as his thirty years of research on the subject, Csikszentmihalyi uses his famous flow theory to explore the creative process.

Mihaly Csikszentmihalyi - Wikipedia

Flow is a constant balancing act between anxiety, where the difficulty is too high for the person's skill, and boredom, where the difficulty is too low (see figure 1). Thus flow is a dynamic rather than static state, since a properly constructed flow activity leads to increased skill, challenge, and complexity over time.

TIJ Book Review: Creativity, Mihaly Csikszentmihalyi

In his seminal work, *Flow: The Psychology of Optimal Experience*, Csikszentmihályi outlines his theory that people are happiest when they are in a state of flow—a state of concentration or complete absorption with the activity at hand and the situation.
