Creo 2.0 and 3D connexion mouse - PTC Community

Re: Measure Tool in Creo 2.0 Not to get too picky, but much of the difficulty Brian lists has to do with long standing issues with the selection method in Proe / Creo, not really the measure tool. I agree with him on that point, query select should give me the nearest item first, the next nearest second and so on.

Can Creo 3.0 and Creo 2.0 interact? Our school computers and most of the returning students run Creo 2.0 (releases ranging from M070 to M100 or later); students that download it now, of course, are getting Creo 3.0. We can seamlessly open Creo 2.0 assemblies and parts in the new Creo 3.0 installations, but will we run into issues going the ...
