Charles Robert Darwin (February 12, 1809 – April 19, 1882) was an English naturalist. He was born in Shrewsbury, Shropshire. He is famous for his work on the theory of evolution.. His book On the Origin of Species (1859) did two things. First, it provided evidence that evolution has taken place. Second, it suggested a theory to explain how evolution works. . That theory is called natural select

Charles Darwin Facts for Kids

Evolution may occur as a result of natural selection, genetic drift, or both; the minimum requirements are those for either process. Natural selection does not necessarily give rise to evolution, and the same is true for genetic drift (Endler 1986: 5). Whether selection occurs or not is a random outcome.
