...

The theory of evolution is one of the most widely accepted ways to explain all life on earth. At its center is how biology directs the evolution of species to create diversity and change in the natural world. Today, the centerpiece of the theory of evolution is that of natural selection by Charles Darwin.

Theory of Evolution: Definition, Charles Darwin, Evidence ...

Like any good scientist, Charles Darwin made a prediction by which other scientists could test his theory in the future. In other words, he made Darwinism falsifiable—capable of being proved false. More than a century and a half later, we are in a position to judge whether his theory has indeed been falsified. 1 Precursors vs. Sudden Appearances
