knowledge of the retailer's data warehousing environment and almost certainly drew on that experience to close the deal. Neoview will be used in conjunction with Wal-Mart's strategically important Retail Link system, which gives Wal-Mart's 20,000 suppliers access to data about the movement and sales of their products in its stores. In other words,

### **Wal-Mart Turns to HP for Data Warehouse Update**

Fundamentally, the analytics warehouse functions as a central repository for an enterprise's structured and unstructured data. In a traditional data warehousing architecture, structured data from ERP systems, CRM systems, file shares, and line of business applications is batch processed into the enterprise data warehouse using ETL (extract ...

### **Data Warehousing | ScienceDirect**

Wal-Mart's data warehouse, the first commercial EDW to reach 1 terabyte of data in 1992, began, like many good things, as an accident. One of the retailer's computer operators, tired of retrieving archival tapes for historical sales data, secretly "borrowed" excess storage space on a company server, where he downloaded and stored the data from the most-requested tapes.
