Geraldine Largay ' s Wrong Turn: Death on the Appalachian ...

A much quieter night, with 40 moths of 18 species - but the undoubted star was an FFG Convolvulus Hawk-moth, a species I've long hoped for. I found it on the front door frame as I went to collect the trap first thing this morning. Perhaps our multiple Nicotiana planting this year helped! It's the ninth Hawk-moth species for the garden.

Mothra | Wikizilla, the kaiju encyclopedia

On August 24, 2013 we launched Death Over Dinner and in a single night we tracked over 500 dinners in 20 countries. Since then there have been over a hundred thousand #deathdinners around the globe. This adventure began when we learned that 75% of Americans want to die at home, yet only 25% of them do.

Moths use acoustic decoys to dodge bat attacks

The deathwatch beetle (*Xestobium rufovillosum*) is a species of woodboring beetle that sometimes infests the structural timbers of old buildings. The adult beetle is brown and measures on average 7 mm (0.3 in) long. Eggs are laid in dark crevices in old wood inside buildings, trees, and inside tunnels left behind by previous larvae. The larvae bore into the timber, feeding for up to ten years ...

Latest Sightings - Somerset Moth Group

Killer Moth is a supervillain who was primarily remembered as an antagonist of Batgirl and Batman. Having decided that the lawbreakers of Gotham City needed a costumed protector just as honest citizens had Batman, Killer Moth emulated the Dark Knight in every way, copying his paraphernalia and building on his legend to create his own super villain identity. He eventually came to resemble a ...

Woolly mammoth - Wikipedia

I was drawn to comedy like a moth, out of the darkness into a dazzling bright limelight. The limelight never got any brighter than at the Queen's Diamond Jubilee concert in 2012.
