Gilles Deleuze (1925–1995) Deleuze is a key figure in postmodern French philosophy. Considering himself an empiricist and a vitalist, his body of work, which rests upon concepts such as multiplicity, constructivism, difference, and desire, stands at a substantial remove from the main traditions of 20th century Continental thought.

Deleuze, Gilles | Internet Encyclopedia of Philosophy

Difference and Repetition (French: Différence et Répétition) is a 1968 book by the French philosopher Gilles Deleuze. Originally published in France, it was translated into English by Paul Patton in 1994.. Difference and Repetition was Deleuze's principal thesis for the Doctorat D'Etat alongside his secondary, historical thesis, Expressionism in Philosophy: Spinoza.

Deleuze and the Genesis of Representation (Continuum ...

Deleuze and the Genesis of Representation begins from the precisely circumscribed definition of phenomenology provided by Husserl's assistant Eugen Fink. According to this definition, phenomenology is oriented around two essential elements: the method of the phenomenological reduction (or epoché) and the problem of genetic constitution.

Genesis of a Music – Wikipedia

The philosophy of Raymond Ruyer was an important if subterranean influence on twentieth-century French thought, and explicitly engaged with by figures such as Maurice Merleau-Ponty, Georges Canguilhem, Gilbert Simondon, and Gilles Deleuze. The Genesis of Living Forms is Ruyer's most focussed and forceful analysis of a central but apparently ...

Difference and Repetition – Wikipedia

DELEUZE AND THE GENESIS OF FORM By Manuel DeLanda Digital Logics This reading is about "Form Finding". Is the final geometrical form of a product dictated by inner or outer condition? One constant in the...

art orbit deleuze delanda - Virginia Tech

Genesis of a Music is a book first published in 1949 by microtonal composer Harry Partch (1901-1974). Partch first presents a polemic against both equal temperament and the long history of stagnation in the teaching of music ; according to Alex Ross , this is "the most startling forty-five-page history of music ever written".

Deleuze And The Genesis Of

"Deleuze and the Genesis of Representation is a superb analysis of the concept of genesis as developed by Deleuze in his three central works - Difference and Repetition, Logic of Sense, and Anti-Oedipus. It also includes one of the best discussions of Deleuze's relation to Husserl in any language.

Deleuze and the genesis of representation (Book, 2008 ...

Third, the notion of "genesis" is itself double; in Chapter 3, Deleuze lays out a dynamic genesis that moves from an encounter with intensity in sensation to the thinking of virtual Ideas, while Chapters 4 and 5 lay out a static genesis that moves from the virtual Idea through an intensive individuation process to an actual entity.

Philosophy after Deleuze: Deleuze and the Genesis of ...

Yet, as Gilles Deleuze has shown in his work on Spinoza, not every Western philosopher has taken this stance. In Spinoza, Deleuze discovers another possibility: that the resources involved in the genesis of form are not transcendental but immanent to matter itself.

Gilles Deleuze (Stanford Encyclopedia of Philosophy)

Deleuze's philosophy of matter and form, a philosophy which attempts to replace essentialist views of the genesis of form (which imply a conception of matter as an inert receptacle for forms that come from the outside) with one in which matter is already pregnant with morphogenetic capabilities, therefore capable of generating form on its own. To
