HDMI with resolution 2560 x 1440 possible? - Super User

Better question: At which size should a monitor be curved? I am using a Dell U3011 30 flat monitor for programming. Samsung CHG90 49". I am using it in combination with a Dell U2407 24 monitor. If you have problems connecting your Surface to a TV, monitor, or projector, try these solutions to identify the issue. 5 inches.

Samsung curved monitor how to split screen

I'm driving three monitors through a USB hub/dock, one of them a "2k" monitor at 2560x1600 (Dell U3011). Because of a limitation in the laptop, the hub would only render the 2k monitor in 1080p. For the adapter, I wanted to use DisplayPort because my (older) monitor only supported higher resolution on DisplayPort or DVI, and the DVI is occupied.

Amazon.com: Cable Matters USB to DisplayPort Adapter (USB ...

The monitor securely stays at the adjusted position. - Supplied HDMI cable works fine at the max resolution 3840 x 1600 and

the max refresh rate 60 Hz. - Monitor is wide enough to open 3 MS Word applications with decent width side by side. - DC power supply is external - less heat inside the monitor and reduces monitor weight. Cons: - Expensive.
