Tim Brown: Designers -- think big! | TED Talk Subtitles ...

Tim Brown, CEO of IDEO, suggests that designers begin to think big. He recommends a new kind of "design thinking"; a holistic, integrated approach that addresses systems rather than parts. In this way, designers will find solutions to contemporary environmental, economic and social problems.

Tim Brown urges designers to think big | Gerald Pilcher Blog

Design thinking refers to the cognitive, strategic and practical processes by which design concepts (proposals for new products, buildings, machines, etc.) are developed. Many of the key concepts and aspects of design thinking have been identified through studies, across different design domains, of design cognition and design activity in both laboratory and natural contexts.
