Experts explain the difference between dying “of” and ...

I assume we're dealing with the intransitive use of 'to pass on' (i.e. there's no object, and the action happens to the subject of the verb), as in 'My grandmother passed on last year.' They both mean 'to die,' but in my opinion 'to pass away' has...

Dead or Died? | Learn English

Differentiate or die trying. The good news is that there is a huge opportunity for smart players in the industry to seize the moment and find ways to fundamentally differentiate their organizations.

Cellular differentiation - Wikipedia

die and exit are identical (they produce the same parser token (T_EXIT) and are executed by the same code). If the parameter is an integer, it will return that code to the shell. If it is not, it will output it and return 0. So die and exit are literally aliases for each-other. – ircmaxell Apr 29 '11 at 13:25

Differentiate or Die outlines the many ways you can achieve differentiation. It also warns how difficult it is to achieve differentiation by being creative, cheap, customer oriented, or quality driven things that your competitors can do as well. Praise for Differentiate or Die

Die (integrated circuit) - Wikipedia

Die is an intransitive verb. Died is the simple past tense and also the participle. Example: Animals die when they have no food. His grandfather died yesterday. My grandfather has died and I must leave for his funeral. Because die is an intransitive verb it cannot take an object, therefore it cannot be used in the passive voice.

The Correct Word: Die, Died, Dead, or Death? (English Grammar)

A die, in the context of integrated circuits, is a small block of semiconducting material on which a given functional circuit is fabricated. Typically, integrated circuits are produced in large batches on a single wafer of electronic-grade silicon (EGS) or other semiconductor (such as GaAs) through processes such as photolithography. The wafer is cut into many pieces, each containing one copy of ...
