diseases. About the Speaker. Dr. Cathy Shilton started her career as a mixed practice veterinarian before going on to complete a residency specialising in zoo and wildlife medicine, and pathology at the University of Guelph in Canada.

Crocodile farm - Wikipedia

Crocodile farming is a growing industry in Australia, producing high-quality skins for the luxury leather market. Australian farmed crocodiles are almost exclusively saltwater crocodiles (*Crocodylus porosus*) obtained from either captive breeding or regulated sustainable egg harvesting from the endemic wild population. Crocodile farming is intensive as most farms contain thousands of crocodiles ...

Diseases in young farmed crocodiles in Irian Jaya.

This study was conducted to determine the occurrence of skin diseases in farmed crocodiles in Australia. Six farms, three in Queensland and three in the Northern Territory were visited during the period May to August 1996. Samples of skin with lesions were obtained and data on morbidity and mortality, possible aetiological agents, and other likely predisposing factors were collected.
