Doent Controller Job Description

ScriptHookVDotNet is required. Drop the .dll and .ini files inside the "/scripts" folder. This mod allows you to open the closest vehicle door to you by pressing a key. By default this key is J, it can be changed in the .ini file. Animations have now been added for opening/closing doors. [You are free to decompile this script to see how it functions.]

What is the cause? Bottom Line. You are trying to use something that is null (or Nothing in VB.NET). This means you either set it to null, or you never set it to anything at all.. Like anything else, null gets passed around. If it is null in method "A", it could be that method "B" passed a null to method "A".. null can have different meanings:. Object variables that are uninitialized and hence ...

What is a NullReferenceException, and how do I fix it?

Ensure that your PS4 controller is connected via USB cable. Turn it on. You'll now be presented with the following options. When presented with the Safe Mode menu, you'll see the option to Rebuild Database. Choose option 5 and press 'X' to Rebuild Database. Wait. Don't panic.
