Dynamic Documents with R and knitr | Taylor & Francis Group

The cut-and-paste approach to writing statistical reports is not only tedious and laborious, but can also be harmful to scientific research, because it is inconvenient to reproduce the results. Dynamic Documents with R and knitr introduces a new approach via dynamic documents, i.e. integrating computing directly with reporting. A comprehensive guide

GitHub - berndweiss/dynamic_documents_with_r: A short ...

R Markdown is an authoring format that enables easy creation of dynamic documents, presentations and reports from R. It combines the core syntax of markdown (an easy-to-write plain text format) with embedded R code chunks that are run so their output can be included in the final document. Markdown documents are fully reproducible (they can be automatically regenerated whenever the underlying R code or data changes).
