Geography of Cambodia - Wikipedia

The standard many college textbooks use to define a desert is: an area receiving less than 10 inches (250 mm) of precipitation per year. But why do these areas get so little precipitation in the first place? Moist rising air near the Equator cools and condenses into clouds and, later, rain. As the ...

How Do Deserts Form? | Britannica

The Eastern Orthodox Church, officially the Orthodox Catholic Church, is the second-largest Christian church, with approximately 220 million baptised members. It operates as a communion of autocephalous churches, each governed by its bishops in local synods. The church has no central doctrinal or governmental authority analogous to the bishop of Rome (), but the ecumenical patriarch of ...
